## DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Report on Webinar

Name of the Course/Program	Webinar on RFID and Network Security
Conducted on	07.05.2022
Duration	One day (2 Hours)
Venue	Seminar Hall, PSN Engineering College.
Number of Participants	30
Dept/Year/Semester	CSE/ II & III, IV /VI
Resource Person (s) Details	Dr.M.Durai Pandian, Associate Professor, School Of Computing And Information Technology, Reva University, Bangalore.
Objective of the Course / Program	To learn basic about RFID and Network Security

Program Summary

A Webinar program on RFID and Network Security was conducted in computer science department for second, third and final year BE students, the program held on 07.05.2022. The program was handled by Dr.M.Durai Pandian, Associate Professor, School of Computing and Information Technology, Reva University, Bangalore. On that session the students learnt how to ensure confidentiality, integrity, authentication, availability, and non-repudiation of information stored in networked information systems. This webinar program helped the students to gain knowledge on Radio frequency identification (*RFID*) networks *are* an emerging type *of* network that is posed to play an important role in the Internet-of-Things (IoT).

List of Students participated in webinar

Students listening to the webinar

Feedback Analysis Graph

The students are benefited and felt very useful about this program and also they gained much knowledge on important role in the Internet-of-Things (IoT).

Description:

➢ Based on the feedback received from the students many of the students suggested to conduct live conversation classes.
➢ Some of the students gave suggestion to have more classes in the webinar.

Action Taken:

➢ Based on the feedback given by the students we have proposed to conduct live conversation sessions.
➢ We are planning to conduct more classes for the students as early as possible.
