Brief usage of Koha Modules in PSN Engineering College

CATALOUGE

Catalouge module issued for retrospective conversion of KRC resources. The strong features of catalouge module are 1) allows user-generated customized reports 2) facilitates authority database of person name 3) corporate body, subject headings, and series name 4) master database of publishers 5) supports full MARC 21 bibliographic format.

CIRCULATION

This module takes care of all possible functions of circulation. The circulation module is fully compliant with the Barcode Circulation. Major functions of the circulation module: Membership, Transaction, Inter – Library loan, Overdue charges, Reminder, Search status, Maintenance of the items such as binding, lost, replace, missing, withdrawal, ect., and report generation based on the various requirements.

ADMINISTRATION

The administration module includes the following features: grouping of users based on the policy, transactional rights over the systems, transaction – level security to users, various configuration settings such as labels, e-mail, and other parameters related to the software use, and common master databases being used in modules.

OPAC KOHA

OPAC having various sorts of looking through choices like straight forward, progressed, and Boolean pursuits. Users can know the status of Central library material. We have integrated OPAC with digital library accessing outside the campus by WEB OPAC.

MEMBER LOG IN/ LOG OUT

Koha programming having a part sign-in and log-out module to verify attendance in central library for understudies students and staff with a bar-coding option. It can generate log reports according to date, month, and year - wise.
